

PCB Mis Print Cleaning Machine I.C.T-210

Introduction:

I.C.T-210 pneumatic PCB Auto Cleaning Machine is designed to clean mis print PCB solder paste, squeegee. Driven by compressed air, the machine clean PCB from upper and lower side, by “One button” easy operation, the machine complete “clean + dry “process automatically; patent designed rotation rods guarantee efficient clean and high quality cleaning result.

Features:

- 1.SUS 304 machine structure, resist Acid and Alkali corrosion.
- 2.Totally Driven by compressed air , no electric power, totally no fire or explosion risk caused by electrical spark .
- 3.One button easy operation, clean and dry complete automatically.
- 4.Push-pull cleaning basket, easy to put and take out cleaning parts, no need special jigs.
- 5.Equipped auto liquid fill in and discharge function.
- 6.Liquid recycle use to ensure low consumption.
- 7.Inner-lock safety door, once open, machine stopped immediately to ensure operator safety.
- 8.3-level precise filtering system to make liquid clean by recycled use.
- 9.Super well-known Pneumatic parts from all over the word ensure stable use of the machine.
- 10.Modular design ensure easy maintenance.

Material:

Operation panel

Cleaning room(Stainless steel304)

Filter

Control Box
Mitsubishi,Schneider,CKD,Omron

Liquid box
Made by I.C.T

Pipe and Valve
Stainless steel304

Specification:

| | |
|---------------------|--|
| Item | I.C.T-210 |
| Clean basket size | L420 x W420 x H200 (mm) |
| Clean tank capacity | 50L |
| Clean time | 4~10min |
| Dry time | 4~10min |
| Air supply | 0.5~0.7Mpa |
| Air consumption | 200~600L/min |
| Clean method | 360°rotation spray solvent clean+ air blow dry |
| Filter system | 20um/5um/1um 3-level filter |
| Machine size | L1060 x W800 x H1600(mm) |
| Machine weight | 210KG |
